2024 HIGHLIGHTS

With deep respect for the people who make our products and our planet that provides the materials to produce them, we have set goals to chart our course toward a more sustainable future. The result of these commitments is Fruitful Futures™, our fourth annual sustainability report.

In it, we share our public commitments to enrich the lives of our consumers, not only through everyday comfort, but through actions we take to create fruitful futures for the generations ahead. This work spans three pillars: People-Centric, Planet-Conscious and Product Authenticity.

Creating a more fruitful future for our families, employees and consumers has never been more critical. Together, we are using the power of our values to run our business in ways that protect both the planet and the people on it – through the products we make and the lives we enrich.
